

## Rockwell Part

Rockwell Parts - AxleTech International is a premier supplier in the world of specialty vehicle drive-train systems and parts along with off highway vehicles. The company prides itself on being its clients' chosen supplier. AxleTech strives to meet and exceed their customers' expectations for service, technology, delivery and quality. They believe in working within an environment that supports the utmost integrity with empowered collaboration, together with a unremitting pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They place great importance on being an environmentally conscious company and providing a safe environment for their staff to work in. Furthermore, they have implemented lots of programs within the company in order to help articulate these values within their business policy. AxleTech happily shares this policy and welcomes interested parties to offer them with whatever comments or questions, as they are glad to share and promote this policy with a greater knowledge of their efforts. They are extremely committed to preserving and improving the environment. AxleTech has an EHS program which not only protects the natural environment but which even actively protects their neighbors and workers also.

AxleTech specializes in the manufacture and designing of planetary axles meant for both military and commercial applications, that could consist of anything from airport ground support to construction equipment. They take great pride in being a ground-breaking drive-train solutions provider as well. AxleTech specifically designs axles to be able to meet particular application demands. They have more than one thousand various axle specs within their current offering. With more than 100+ years of history and skill, AxleTech proudly supplies the most complete solution for any of your axle requirements. The business is well known in numerous commercial and military applications. They provide complete axle assemblies for aftermarket replacement requirements, together with servicing axle needs for OE production. Their high mobility ISAS have added details that could be seen in the "ISAS" product selection.
