

Concrete Hoppers

Concrete Hopper - The self-dumping hopper accessory could automatically start to both unload and release as soon as the bumper release contacts the side of a dumpster. After dumping is finished, the hopper could go back to original upright and locked position. This piece of machinery is even accessible with a cable that enables operation from the seat of the lift truck in order to have the alternative of manually unloading the hopper. There is a locking chain provided in order to secure the hopper to the tine truck. This product is made with consistent and reliable robotic welds for maximum strength. The lift truck dumping hopper also has a blue powder coat finish to be able to maintain durability.
