

## Meritor Part

Meritor Parts - Meritor is a leading international supplier that is proudly founded on a one hundred year custom of quality and service. They concentrate on a broad range of integrated systems, modules and components to original equipment makers and the aftermarket for the transportation and industrial trades.

Meritor values the needs of their customers to guarantee their success while priding itself in the company's unique energy and thinks this output of energy to be their competitive advantage in their global operations. Meritor starts with a tradition which values diversity of people and their broad thought processes. Operating in 19 countries and hiring more than 11,200 individuals, Meritor promotes innovation and collaboration among a team of knowledgeable professionals.

By only hiring future focused people, Meritor strongly thinks these top-caliber people would be able to rapidly get used to to changing environments and exhibit the performance and commitment required to achieve results in the competitive materials handling trade. The company empowers their teams to make sound business decisions in order to enhance the overall success of the company. In return, Meritor offers all of their employees different possibilities for professional and personal development.

The Advanced Engineering team is on the forefront of components and system engineering. This includes drivelines, axles, braking and suspension systems utilized for heavy duty and medium trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives which represent the entire Asia Pacific region. This particular team is even responsible for supporting the requirements of all their worldwide engineering personnel.

Meritor's dynamic and customer focused Quality team is committed to ensuring optimum processing at their production plants and aftermarket distribution facilities that are located all over the world in 19 countries and in 5 different continents.

The supplier development network is particularly located to be able to support new business growth. Regional teams are supported by international initiatives, quality systems and centralized specialties in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a data-driven, fact-based method to decision making in every part of the company. The DFSS or Design for Six Sigma ensures product reliability in every region. The team is also comprised of transactional Green Belts who use Six Sigma tools to business techniques and apply lean methods.
